

Works at Worth Park Lake

Crawley Borough Council's contractors Land and Water have now started work on the Worth Park Lake. They will be here for between three and five months depending on conditions.

The turf in this area has been removed in order to protect it from damage from the heavy machinery being used. It will be fully restored when the works are finished.

For further information please contact Ray Hook on 01293 438276.

We apologise for any inconvenience caused.
